

## PATENT & TECHNOLOGY ANALYST | SEMICONDUCTORS

Specialized in analysis of patents and scientific information, Knowmade provides Technology Intelligence and IP strategy consulting services. The company supports R&D organizations and industrial companies in their business development by offering them a deep understanding of their competitive IP environment and the technology trends. Knowmade operates in the following sectors: Compound Semiconductors, Power & RF/Microwave Electronics, LED/OLED Lighting & Display, Photonics, Memories, MEMS & Sensors, Manufacturing & Advanced packaging, Batteries & Energy management, Biotechnology, Pharmaceuticals, Medical Devices, Medical Imaging, Agri-Food & Environment. Knowmade's experts provide prior art search, patent landscape analysis, scientific literature analysis, patent valuation and freedom-to-operate analysis. In parallel the company proposes litigation/licensing support, technology scouting and IP/technology watch service. Knowmade's analysts combine their technical and patent expertise by using powerful analytics tools and proprietary methodologies to deliver relevant patent analyses and scientific reviews.

### JOB DESCRIPTION

Knowmade is looking for a Patent and Technology Analyst who combines a deep knowledge in Semiconductors (compound semiconductors, discrete devices, systems/modules, packaging) with an experience in patent analysis (patent landscape, freedom-to-operate, patent valuation) for performing patent/technology tracking, landscaping and analyzing. This full-time position is located at Knowmade's office (Sophia Antipolis, France) under permanent contract.

### YOUR RESPONSABILITIES

#### As a Patent and Technology Analyst, you will:

- Quickly review and gain an understanding of technical aspects of client needs and/or technical search concepts.
- Perform extensive searches in patent and scientific databases.
- Review, gather and analyze patent and technical information.
- Provide IP reports in a timely and high-quality manner.
- Develop a deep understanding of companies' patent strategy and technology roadmap.
- Track and understand technology and IP trends.
- Participate in dedicated international conferences and workshops
- Establish and manage long-term relationships with customers.

### EDUCATION / EXPERIENCE

- ✓ Graduated of Master or Ph.D degree in a Semiconductor-related field.
- ✓ Strong knowledge of the semiconductor technologies and their applications.
- ✓ Experience in patent analysis (patent landscape, patent valuation, freedom-to-operate, etc.) and/or supporting patent licensing activities.
- ✓ Proficient in the use of patent databases (Orbit-Questel or similar web-based IP database), and ability to ramp quickly on a variety of analytical patent tools.
- ✓ Proficient in the use of MS Office suite and similar programs.
- ✓ Demonstrated outstanding written/verbal communication. Excellent English writing/speaking is mandatory.
- ✓ Demonstrated ability to partner on projects with others. Quick learning and flexible aptitude required.
